

# Free Introductory GFMS in the Cloud

With KSI's Cloud Hosting Solution, using your new asset manager just got easier! Cloud hosting provides you with all the software features you expect from KSI, without any of the hassles of software installation or maintenance. Let us provide GFMS in the cloud free for one year, lightening the burden of your IT department

Now, you won't have to allocate server hardware, install/upgrade software or manage databases.

## Cloud Services with IT Support

*We value your business and want to provide you with a intuitive software experience to manage your hardware.*

*We believe that our Cloud Hosting Solution is the best path forward to achieving this goal.*

*Isn't it time you upgraded your software experience? Contact KSI about our Cloud Hosting Solution today!*

**Nobody knows your security challenges better than you - trust KSI to secure your peace of mind for a safer future.**

### ● Remote Access

With cloud hosting, you will be able to access information about your assets, run reports and update data from any phone, computer, or tablet.

### ● First Year FREE

We want to give you enough time to fully evaluate the service and determine if it's the best solution for your organization.

★ This promotion is only available in the USA.

### ● New and Existing Customers

If you are a new customer, we will provide this service for one year, free of charge.

If you are an existing customer and meet the eligibility requirements (ie. unit contains BEAR hardware and have a current Gold Support Program), you can also receive this service for one year, free of charge.

*KSI asset boxes must contain BEAR hardware and have a current Gold Support Program.*
