

KSI is an innovative leader of security asset products in the casino industry. Our engineers deliver creative, unique solutions to gaming technology, offering casinos the peace of mind they need to ensure compliance, security and functionality to their facilities. Our products are designed to:

- Utilize KSI GFMS software to ensure concise monitoring and reporting capabilities
- Reduce employee risk of lost, misplaced or stolen assets
- Easily integrate into your current monitoring system

Electronic Lockers

- Ideal for the gaming industry for quick and easy access
- Electronically accessible by PIN, card, biometric ID
- Provides securely monitored housing for weapons, employee personal items, controlled substances, and other assets

KSI Surface SWAT

- Network based electronic access & monitoring
- Weatherproof housing for keys or small assets
- Power is provided via POE (Power Over Ethernet) from an AC or DC source
- Emergency door release available via key access

Radio Lockers

- Electronically-controlled lockers
- Tracker clamps over antennas
- Tracks radio presence within a locker
- Charges the radio unit while stored

GFMS Key and Card Control Device

- High-security, electronically-controlled key positions
- Assets released to authorized users with active ID
- Monitors and records asset removal to help prevent loss and theft
- Assigned to one or more users

Tamper-Proof Key Rings®

- High security solid and stranded stainless steel rings
- Cannot be opened without detection, thus preventing asset removal or substitution
- Five sizes available in each style

Global Facilities Management System

GFMS™ combines sophisticated and adaptable, web enabled, PC-based software with no client installs. Dynamic integration and custom application are cornerstones of our philosophy towards system management.

Key Systems, Inc. will help you formulate an asset management strategy specific to your facility's requirements, regardless of size, scope and pre-existing technology.
