*\*Steel doors removed for image clarity.*

The KSI SmartFob SAM is one of the most compact storage capacity products available. Assets may be returned to any open position within your SmartFob SAM system, which is powered by GFMS.

Users can be assigned one or more asset positions. Once user identification is accepted, the SAM door opens and the appropriate position(s) will be illuminated. Simply pull the SmartFob straight out to remove. After use, the SmartFob can then be returned to any open position.

The SmartFob is available in both latched and un-latched varieties to suit your required security level.

A reinforced SmartFob option, shown to the right, is available to accommodate heavier assets.

## Global Facilities Management System

As with all Security Asset Managers, the KSI SmartFob SAM is powered by GFMS or your own asset management system. Each SmartFob is tracked by a unique electronic serial number. GFMS software provides many functions including live monitoring of SAM status and user activity, reports, alarm alerts, and much more.

This SAM can be used in combination with all devices networked through GFMS. It is also compatible with many identification devices.

### Tamper-Evident Key Tags

Each KSI SmartFob comes with a Tamper-Evident Key Tag for attaching keys and assets. Tamper-Proof Key Rings® are also available upon request.

\*Shown with a red Tamper-Evident Key Tag. Other colors may be available upon request

The SmartFob SAM can be used in any business or industry and makes a handsome solution for large amounts of keys in a small amount of space.

SAMs are equipped with emergency mechanical door and panel access.

Apartments  
Car Pools  
Property Management  
Janitors/Cleaning Services  
Car Dealerships

And many more...

Numbered positions with corresponding numbered tags may be added to accommodate your auditing needs.

#### Maximum Capacity

Maximum Capacity	Width	Height	Depth	Weight
40 SmartFob	18"	18"	6"	20 lbs.
72 SmartFob	18"	27 <sup>1</sup> / <sub>8</sub> "	6"	45 lbs.
144 SmartFob	28 <sup>1</sup> / <sub>8</sub> "	27 <sup>1</sup> / <sub>8</sub> "	6"	65 lbs.
208 SmartFob	28 <sup>1</sup> / <sub>8</sub> "	36"	6"	120 lbs.
