# Touchscreen Operations Guide

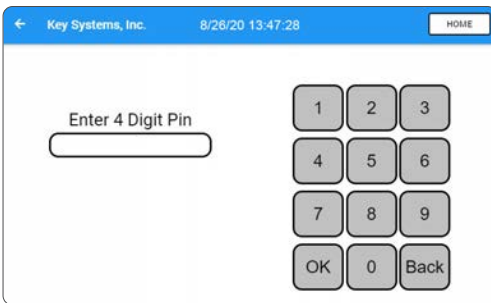

**Start:** Default screen, User presses START.

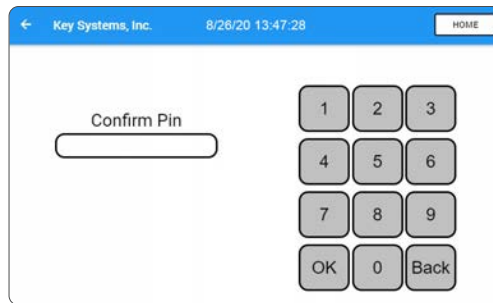

**Option:** From this screen users can start reservations, access current reservations, and/or end reservations. Managers can access Manager Menu from this screen as well.

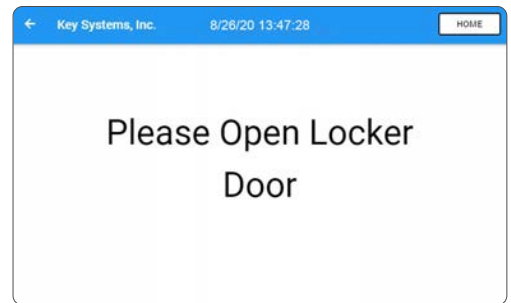

**Reservation Options:** Users can choose an open (green) locker to access and start a reservation.

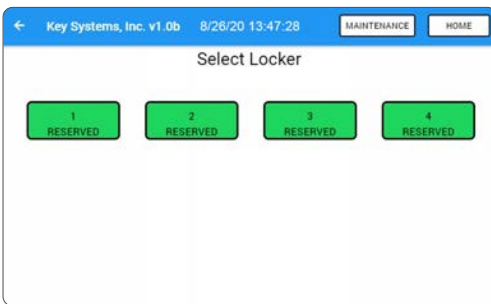

**PIN Creation:** User creates and enters a personal PIN.

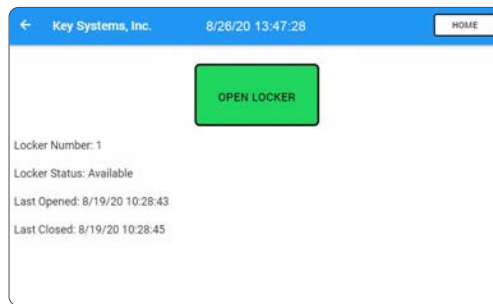

**PIN Confirmation:** User re-enters and confirms PIN. If PINs do not match, the user will be prompted to enter a PIN again.

**Locker Prompt:** User is prompted in large, clear text to open and close their reserved locker as needed. An LED will also light up next to the door latch of the selected locker.

**Managers Menu:** Managers can view locker reservations after entering their own PIN.

**Managers Options:** Managers can see the status of lockers as well as information about last access and reservation.

**Managers Options:** Managers can open lockers and end reservations as needed.
