

FLEET MANAGEMENT

Keep your assets secure

Tamper-Proof Key Rings

Interchangeable Cores

Lockers

Key Boxes

User ID Options

At KSI, we understand the crucial significance of key security in fleet management. We provide sophisticated security solutions to ensure complete protection of your assets. When handling multiple sets of keys, it's important to have a system that offers tracking capabilities.

Key Systems, Inc's Security Asset Manager allows for full tracking of keys. Reporting capabilities ensure you know who is using what and when. Our SAMs come in several styles of electronically controlled cabinets to store, audit and manage your keys and assets. You can personalize these devices to secure a wide variety of sensitive items. Additionally, use in conjunction with our GFMS™ software to ensure concise monitoring and reporting capabilities.

Security Asset Managers

High-security, electronically-controlled key positions. Assets released to authorized users with active identification. Monitors and records asset removal to help prevent loss and theft. SAM key boxes are available in 8, 16, 32, 64, and 96 key positions. Custom solutions are available.

IC Cores

KSI Dimple Key

Access Control

KSI products work with your existing access control system.

Lockers

Smart storage standard or custom built, electronically controlled lockers can be modified any number of ways to accommodate the needs of your facility. Lockers secure a range of high-value assets in all shapes and sizes.

SWATBox

Features an embedded install which conceals physical assets within your facility wall and away from public view. The customizable interior cavity may hold cards and keys or act simply as a locked drawer.

Tamper-Proof Key Rings

High security solid and stranded stainless steel rings. They cannot be opened without detection, thus preventing asset removal or substitution. Five sizes available in each style

Global Facilities Management System™

GFMS™ combines sophisticated and adaptable, web enabled, PC-based software with no client installations. Dynamic integration and custom application are cornerstones of our philosophy towards system management. KSI will help you formulate an asset management strategy specific to your facility's requirements, regardless of size, scope and pre-existing technology.
