Keep your assets secure

Tamper-Proof Key Rings™

Interchangeable Cores

Vel-Key®

Key Boxes

High-Capacity Storage

Key Systems, Inc. understands the crucial role of asset and key security in property management. Whether managing a few keys or numerous assets, a robust security system is essential for peace of mind. Our engineers create innovative and tailored solutions, giving property managers the assurance they need to maintain compliance, security, and functionality across their facilities.

Our Security Asset Managers streamline the tracking and distribution of keys and access cards, ensuring maximum security and comprehensive reporting. For an extra layer of protection, consider KSI's Tamper Proof Key Rings. These patented high-security stainless steel rings are designed to be tamper-evident, ensuring they cannot be opened without detection. This additional safeguard keeps your most valuable assets secure.

## Security Asset Managers

High-security, electronically-controlled key positions. Assets released to authorized users with active identification. Monitors and records asset removal to help prevent loss and theft. SAM key boxes are available in 8, 16, 32, 64, and 96 key positions. Custom solutions are available.

IC Cores

KSI Dimple Key

## Access Control

KSI products work with your existing access control system.

## Lockers

Smart storage standard or custom built, electronically controlled lockers can be modified any number of ways to accommodate the needs of your facility. Lockers secure a range of high-value assets in all shapes and sizes.

## SWATBox

Features an embedded install which conceals physical assets within your facility wall and away from public view. The customizable interior cavity may hold cards and keys or act simply as a locked drawer.

## Tamper-Proof Key Rings

High security solid and stranded stainless steel rings. They cannot be opened without detection, thus preventing asset removal or substitution. Five sizes available in each style

## Global Facilities Management System™

GFMS™ combines sophisticated and adaptable, web enabled, PC-based software with no client installations. Dynamic integration and custom application are cornerstones of our philosophy towards system management. KSI will help you formulate an asset management strategy specific to your facility's requirements, regardless of size, scope and pre-existing technology.
